

# Index

## A

- Action, 76–77
- Activities
  - calendar/day-planner for, 9
  - prioritization of, 9
- ADKAR (awareness, desire, knowledge, ability and reinforcement) model, 148–149
- Advanced pharmacy practice experiences (APPEs), 18–20, 27
  - evaluation of, 113–117
- ASHP
  - accreditation standards, 20
  - preceptor self-assessment, 143
- Assessment
  - feedback vs. 70
  - of IPPEs, 17
  - of practice site, 3–6
  - of preceptor, 135–141
- Attendance policy, 32

## B

- Baseline testing, 51
- Behaviors, student, 48
- Boyle, Jaclyn, 135–146

## C

- Cardiologist, 5
- Cardiology rotation, 47
- Career development, 125
  - mission statement, 126, 127–128
  - values in, 125–126
- Case presentation(s), 33–34
  - evaluation of, 83–84
- Case-based teaching, 60
- Change management, 148
- Change models, 148
- Chart review, 63
- Coaching, 59, 77

- Cognitive learning, 57
- Come out with bad news, 76
- Communication issues, 95–97
- Communication skills, 64–65
  - assessing, 65
- Community-based APPEs, 19
- Community-based IPPEs, 15
- Competency
  - patient care, 40–41
  - teaching, education and knowledge dissemination, 41–42
- Corrective feedback, 74
- Critical thinking
  - activities, 67
  - teaching, 61–63
- Curriculum vitae review, 50

## D

- Debriefing, 63
- Deductive reasoning, 62
- Dietitian, 5
- Difficult situations, 87–88
- Direct instruction, 57–59
- Direct observation, 51
- Disinterested learners, 93–94

## E

- Emotional intelligence, 63–66, 88
  - activities, 67
  - assessing, 66–67
  - competencies, 64
- Emotional learner, 99–100
- English as second language students, 95–96
- Entitled learners, 92–93
- Errors, handling, 100–101
- e-Technology, 89
- Evaluation
  - APPE, 113–117
  - case presentation, 83–84
  - journal club, 81–82

- Everly, Lukas, 147–157
- Exit interviews, 137–138

## F

- Facilitation, 59–60
- Fast learners, 97, 101–102
- Feedback, 69, 70–72
  - approaches to, 73–76
  - assessment vs. 70–71
  - of colleagues, superiors, 142
  - effective, 72, 80
  - giving difficult, 76–78
  - key principles of, 72–73
  - learner and, 136
  - sandwich, 73, 95
- Final evaluation, 33, 106–112
  - feedback and, 108
  - poor performance
    - presentation in, 110
  - presentation of, 109–110
- Five Minute Preceptor teaching model, 60–61
- Formative assessment, 70

## G

- Goal setting, preceptor, 141
- Goals, 125
- Grade inflation, 108

## H

- Healthcare professional interactions, 16
- Honors grade, 111
- Hospital outpatient pharmacy site assessment, 3–6

## I

- Inductive reasoning, 62
- Informal feedback, 136
- Institution-based APPEs, 19
- Institution-based IPPEs, 15
- Interns, precepting, 153

Introductory pharmacy practice experiences (IPPEs), 13, 14–17, 27  
patient care activities for, 15

## L

Laboratory manager, 5  
Layered-learning model (LLM), 14, 24–26, 27  
challenges, 25–26  
Learner(s)  
baseline testing of, 51  
direct observation of, 51  
discussions with, 50  
disinterested, 93–94  
emotional, 99–100  
entitled, 92–93  
fast, 97, 101–103  
feedback and, 136  
getting to know, 49–52  
as innovators and catalysts, 154  
overconfident, 94–95  
previous evaluations of, 50  
as pharmacist extenders, 151–152  
progression expectations for, 34  
struggling, 101–103  
unprepared, 91–92  
Learning experience  
activities and goals/objectives evaluation of, 40–42  
calendar for, 44  
description of, 29–30  
evaluation strategy for, 43  
expected progression of resident responsibilities in, 42  
purpose of, 30–31  
sample of, 37–39  
Learning material, customization, 53  
Learning objective grid, 7–8  
Learning styles, 102  
Lecture capture products, 53

Letters of recommendation, 129–130, 131, 134  
Listening, 77  
Logistics, 49

## M

Medication therapy management (MTM) services, 6  
Mentor, 88  
effective, 123–124  
Mentoring, 122–123  
moments, 125  
phases of, 123, 124  
solution-focused, 123, 124  
Midpoint evaluation, 78–79, 107  
Mission statement, 126, 127–128  
Modeling, 49, 59, 96

## N

Networking, 130, 132–133  
activities, 134  
Next steps, 22

## O

Orientation, 25, 47, 54  
customizing, 52  
modeling session for, 49  
syllabus review and expectations for, 48  
time savers in, 53–54  
Overconfident learners, 94–95

## P

Patient  
care activities, IPPEs, 14–15  
case problem list, 7  
-related outcomes, 24  
Patient counseling, 16, 52, 53  
rubric, 85–86  
Patient safety officer, 5  
Pendleton Four-Step Model, 74  
Personality issues, biases, 98  
Pharmacy technician, 5

Physical therapist, 5  
Portfolio review, 50  
Post evaluation, 79  
Postcompletion surveys, 138  
Postgraduate year 1 residency (PGY1), 20–22, 27  
Postgraduate year 2 residency (PGY2), 23, 27  
Practice, 156  
experiential opportunities in, 149–150  
strengths, determining, 4–5  
Practice improvement, 147–148  
change and, 148  
learners as innovators and catalysts in, 154  
learners as pharmacist extenders in, 151  
precepting technicians, interns to expand roles in, 153  
research question, study design development for, 155  
Praise, 77  
Preceptor  
contact, 31  
evaluation/assessment, 11, 135–141, 143  
interaction, 10  
learner feedback to, 136–137  
roles of, 57–60  
self-assessment by, 138–139, 141, 143  
Preceptor development, 135, 141–143  
plan, 141  
resources, 142  
Preceptors-in-training, 144–145  
Prioritization, 90  
Procrastination, 91  
Professional development, preceptor, 141–142  
Professionalism, 16, 88–90, 103

## R

- Reflection, 66
- Reframing bad news, 76
- Reinforcing feedback, 73, 74
- Research question development, 155
- Resident
  - development of precepting skills, 152–153
  - training, 150–152
- Rotation
  - activities scheduling in, 9–10
  - classification of, 9
  - contingency projects for, 10
  - curriculum of topics for, 10
  - customizing, 52–53
  - day-to-day activities development in, 9–10
  - goals and objectives framework for, 6–7
  - ongoing formative feedback during, 107
  - selection of, 4
  - staggering start times for, 54
  - tailoring, 13
  - trainee file for, 52
  - training and logistics in, 49
  - unmatched activities and, 9
  - wrapping up, 105–6

## S

- Schneider, Stacey R., 55–68, 87–104, 121–134
- Self-assessment/  
self-evaluation, 60, 110, 125

- preceptor, 138–138
- Self-efficacy, 124
- Simulated scenarios, 63
- Site assessment, 3–4
  - practice strengths, 4–5
  - practice weaknesses, 5–6
- Situation-Behavior-Impact (SBI) Feedback Tool, 73–75
- Skilled nursing facility nurse, 5
- SMART goals, 91, 139
- Social media, 133
- Social worker, 5
- Solution-focused mentoring, 123, 124
- Soric, Mate M., 3–12, 29–44, 47–54
- Specificity, 76
- StrengthsFinder 2.0*, 123
- Struggling learners, 101
- Study design development, 155
- Summative assessment, 70
  - preceptor evaluations, 136–137
- Supplemental preceptors, 5
- SWOT (strengths, weaknesses, opportunities, threats) analysis, 139, 140
- Syllabus
  - assessment plan, assignments in, 33–34
  - attendance policy in, 32
  - calendar in, 33
  - delivery to learners, 34–35
  - general description and logistics in, 31–32
  - goals, objectives, activities

- and, 32–33
- learner progression expectations in, 34
- off-hours activities and, 32
- preceptor contact and, 31
- purpose of, 30, 31, 35
  - review and expectations of, 48
- writing, 29–30

## T

- Task completion, 22
- Taxonomy of Educational Objectives*, 7
- Teaching
  - critical thinking skills, 61–63
  - emotional intelligence, 63
  - other strategies, 62–63
  - Socratic method of, 62
- Teaching philosophy, 55
  - sample, 58
  - writing, 56–57
- Technicians, precepting and, 153
- Thinking aloud, 62
- Time management, 21, 90, 92
- Training, 49
- Transition of care, layered-learning model, 25

## U, V, W

- Undergrading, 109
- Unprepared learners, 91–92
- Values, 125–126
- Wisneski, S. Scott, 13–28, 69–86, 105–117
- Work–personal life balance, 91
